

Standard model	Road Blocker Bollard BOBM649 series
Control system	Electronic hydraulic control
Voltage	AC110/220V (controller voltage:24V)
System power	350W
Passing pressure	80-ton container truck
Rising time	1.5~6S(pre-set)
Dropping time	1.5~6S(pre-set)
Material	304 stainless steel, thickness 6mm spray rust primer
Weight	150KG
Control Type	RFID card, remote control
Power off	Open or close by manual
Working Environment	Indoor and outdoor
Working temperature	-30 °C to +70 °C
Relative humidity	≤95% coagulation free
LED Indicator	Optional, on top of bollard
IP protection level	IP 68
